Went to my security council meeting where we walked, drove around campus and saw potential security hazards and identified them. Johnathan went with me so he can fill you in in

further details in case I missed anything. Yons dark area was identified but it is seen as a hazard as it being too bright can be an issue for drivers at night as it would blind them. The facilities committee will be meeting after fall break for capital improvements. This year was the most capital improvement submissions we have ever had with a total of 10 submissions last I checked but some we already said no to unfortunately.
